## ABOUT ME

*I am very organised, focused and thrive when it comes to time management. I work well in teams and individually whilst also having many experiences as a team leader, I am used to helping to drive teams forward to reach their goals.*

I volunteer with a national youth group, as a member of staff, building on young people's potentials to achieve great things, helping them to evolve and thrive in leadership and teamwork. I have also helped to organise and run international camps for children aged 8-18 for over 500 people.

I enjoy production tech and have a background in many different types of productions from work at school, university and youth programs.

## SKILLS

Communication

Teamwork

Leadership

Organisation

Time Management

## EDUCATION

Computer Science with Digital Technology  
Partnership (PwC)

University of Birmingham

2018-Present Day

A/AS-Levels (A\* - Computer Science, A -  
Maths, A - Media (AS), B - Physics )

Royal Russell School

2017-2018

Young Magicians Club  
Wrote and Directed a Spanish Play  
Volunteered at a Computing Roadshow  
OCN Leadership Qualifications  
Various Educare Certifications  
Bronze DofE  
CCF Corporal

## HOBBIES AND INTERESTS

I enjoy theatre tech (lighting, sound and visuals) and have a background in many different types of productions from work at school, university and youth programs. I also love performing magic at parties and events for all ages. I work for a production company at University and as the Head of Tech at the media society, Guild TV, where we produce live chat shows, live sporting events and broadcasts and a variety of pre-recorded material. I am also working towards my Gold DofE and have received many OCN leadership qualifications.

In my spare time, I volunteer with a national youth group, as a member of staff, building on young people's potentials to achieve great things, helping them to evolve and thrive in leadership and teamwork. I have also helped to organise and run international camps for children aged 8-18 for over 500 people. I am responsible for a weekly parade night for the Juniors and Seniors of Birmingham Company JLGB where we run active and skilled sessions, teaching the members things that the classroom doesn't.

I acted as the National Sergeant's Mess President in 2018 for JLGB where I was responsible for over 300 young people across the UK, I was liable for the development of these individuals and ran leadership training activities over a residential weekend in which I was CO. I have been lucky enough to represent the organisation at a number of events; meeting HRH Prince Charles, laying a reef at the Cenotaph on AJEX parade, attending a leadership meeting at City Hall and being invited to the Queen's Garden Party. I was also recognised at the Jewish Volunteering Network Gala Night, winning the 'Rising Star' award.

I am an ambassador for PwC, having been a part of their social media campaign, being a social rep for our cohort, assisting with recruitment and school activities and creating a website to capture the flag competition. At university I have also worked on a team project where we created and developed a video game and planned a mental health app. I also like to keep in touch with the news and upcoming technology, reading into various new projects from companies such as Tesla and also regularly watch inspirational TED talks.

I became very involved at school, acting as Head Boy in my final year, running leadership conferences for local school's senior prefects using my knowledge from the JLGB. We also created a talent show for the entire school and liaised with all the different departments within the school to bring the event together. We had to establish budgets, buy materials, speak to marketing, get the correct IT and tech, ensure maintenance were onboard with the plan and obviously confirm with the teaching staff, deputy heads and headmaster. I was the Editor of the fully student-led School Newspaper at school for a number of years, where we made regular papers to voice opinions of students alongside making charity specials to raise money and awareness.

Also, I played a big part in my school's Model United Nations International Conference, being a delegate once, Deputy Head of the Press Team twice, creating four newspapers in five days during the conference, and being Head of Media for my last year whilst also operating and setting up the evening entertainments for all of the days throughout five conferences.

An organisation that I was a part of, and helped to run on a monthly basis, was the South London Jewish Youth Group. I planned and executed each session throughout the monthly meeting, whilst also arranged fundraising schemes as the initiative was free to attend.
